

Modern design, creates a great atmosphere on any terrace

ALORA

Enjoy the outdoors longer.

The Alora brings shade and cosiness to your terrace.

The terrace awning that blends in beautifully with your home

Your home is your haven. Link your indoor and outdoor spaces and create an attractive terrace that matches the style you use inside. By playing with shadow and light you can enjoy the outdoors even longer.

With its modern, cubic design and the various options to tailor the screen to your wishes, the Alora meets all your sun protection needs!

The power of the Alora

With the Alora, you can enjoy the outdoors for even longer. It creates a great atmosphere in every terrace and garden. What makes the Alora the perfect match?

- Modern, cubist design that fits beautifully on every facade;
- Dimmable lighting integrated in the cassette (optional);
- Control light and heat so you are always comfortable;
- Made to measure (see page 11 for the options);
- Fully closed cassette for optimal protection of the screen;
- High-quality aluminium, available in various colour options;
- Can be operated in different ways: with a wall switch, remote control or app for optimal ease of use;
- Soft and serene or bright and colourful? The wide choice of fabrics allows you to create an atmosphere exactly the way you want it.

Cassette

The Alora is made of high-quality aluminium. When closed, the cassette offers optimal protection to the fabric and has a sleek look on the facade.

The construction is light, yet robust, making the terrace awning resistant to various weather influences. As an option, you can choose for LED lighting in the cassette, so that you can stay outside and enjoy your terrace and garden longer in the evenings. The awning is available in various modern colours (powder coated).

Available colours:

-  Pure white (RAL 9010)
-  Grey aluminium structure (RAL 9007)
-  Anthracite grey structure (RAL 7016)
-  Jet black structure (RAL 9005)
-  Other RAL colours available on request

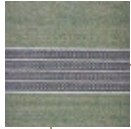

You prefer another colour? Ask your dealer for the options.

Sunscreen fabric

A terrace awning is not only functional, it also offers the possibility to enhance the style of your terrace and garden. With the right type of fabric you can create an atmosphere to match your home, garden and interior. Do you prefer rustic or modern, plain or striped, bright or soft colours? Thanks to the large choice in fabrics, you can have the Alora completely match your wishes.

- ...helps you save energy costs.
- ...lets you enjoy the outdoors longer.

The specifications

Sunscreen fabric

The collection of the Tibelly brand consists of 76 different acrylic fabrics, in beautiful colours and sparkling patterns. The colours are interwoven in the heart of the fibre, which ensures long-lasting colour-fastness. In addition, the fabrics are treated to repel water and dirt, making maintenance very easy. So you can enjoy your Alora even longer!

For every meter of Tibelly fabric sold, we donate to the KWF cancer foundation!

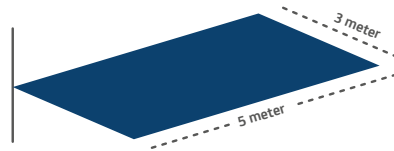

For more information about the fabric, visit tibelly.nl.

Size options*

Maximum width: 5500 mm

Maximum projection: 3000 mm

Pitch: 5° to 35°

* Ask your dealer what proportions between width and projection are possible

Certification

To guarantee the highest quality, the Alora has been tested according to various DIN standards in collaboration with TÜV-Nord. This has led to the following classifications*, as explained below.

* At max. 5000 mm x 3000 mm and at max. 5500 mm x 2500 mm

Lifespan class according to DIN EN 13561

Lifespan refers to the number of extension and retraction movements that an exterior sun protection system can withstand. The Alora complies with the following lifespan class:

Lifespan class	Class 3
Open and close	10000

Waterload class according to DIN EN 1933

Waterload expresses the number of water in litres/m² per hour that an external awning can withstand. This is the amount of precipitation that a fully open awning set with the right pitch is able to drain off. The Alora complies with the following waterload class:

Waterload class	Class 2
Amount of precipitation	56 litres/m ² per hour

Resistance to wind load classification according to DIN EN 1932

Wind load is the maximum wind force an opened external awning can withstand. The Alora complies with the following resistance to wind load class:

Resistance to wind load class	Class 2	Class 1
Wind strength in Beaufort	5	4
